CS 162 HW 0

GitHub and the autograder

Code submission for all projects and homework in the class will be handled via GitHub so you will need a GitHub account. We will provide you with private repositories for all your projects. **You must not use your own public repositories for storing your code. Throughout the course, if you discover repositories with CS 162 solutions, please notify the course staff. Using solutions you may discover on-line is not permitted. Seek course staff for help. What you turn in should reflect your work.**

Visit cs162.org/autograder to register your GitHub account with the autograder.
